# NSAIDs Safer Care Bundle – Run Chart 2

From the data collection sheet each week, plot the total number of Ys and Not HRs for a sample of 10 patients in response to the question below and enter the date. Along the x axis (horizontal), enter the date and along the y axis (vertical), enter the number from the **blue** box. Join each point on the chart with a line.

Question: **If patient is in a high risk group, has action been taken to reduce this risk?**

Number of Ys and Not HRs (from sample size of 10 patients)

Date (enter for each point)
