NSAIDs Safer Care Bundle – Run Chart 3

From the data collection sheet each week, plot the total number of Ys and Not TWs for a sample of 10 patients in response to the question below and enter the date. Along the x axis (horizontal), enter the date and along the y axis (vertical), enter the number from the **green** box. Join each point on the chart with a line.

Question: **If the triple whammy combination has been prescribed has this been highlighted to the prescriber?**

Number of Ys and Not TWs (from sample size of 10 patients)

Date (enter for each point)
