

Breakout 3: Using the box score to deliver improvements

Joe Hands, Principal Lead for Value Management, NES Lucy Aitken, Data & Measurement Advisor, HIS

Improvement Hub

Enabling health and social care improvement

Plan for today

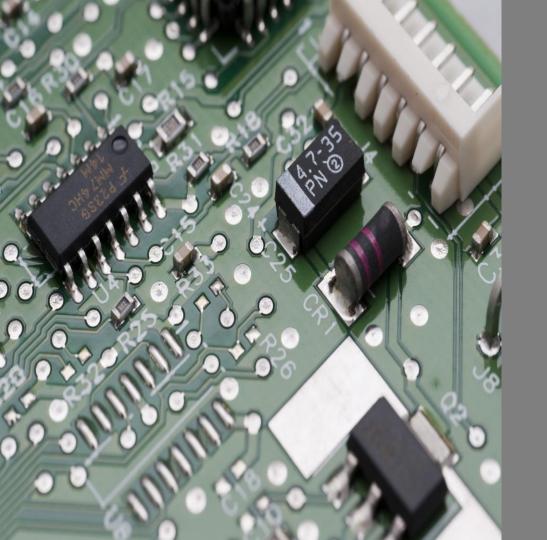

Components of the box score

Identifying measures for inclusion and populating a box score

Prioritising measures

Using the box score to deliver improvement

Components of a box score

What is a Box Score?

The heart of the approach and contains three kinds of measures

Organises the real-time quality and cost data to drive improvement and monitor quality control

Links to organisational priorities and measures the cost per patient/procedure

What makes a good box score?

Good data flows that are easy to access (weekly)

Focuses on areas that are relevant and important to the team

That manages Quality within an area (SPSP, EiC, Access QI)

What is included in the Box Score?

Performance

Areas such as quality, safety, efficiency & timeliness and experience, which may come from other programmes

Capacity

Staff time directly and in-directly adding value for the service user and what available time is left

Finance

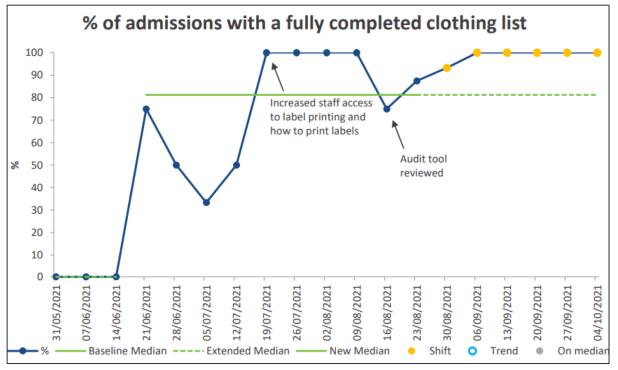

Variable costs in areas such as staffing, supplies, drugs and ancillary costs

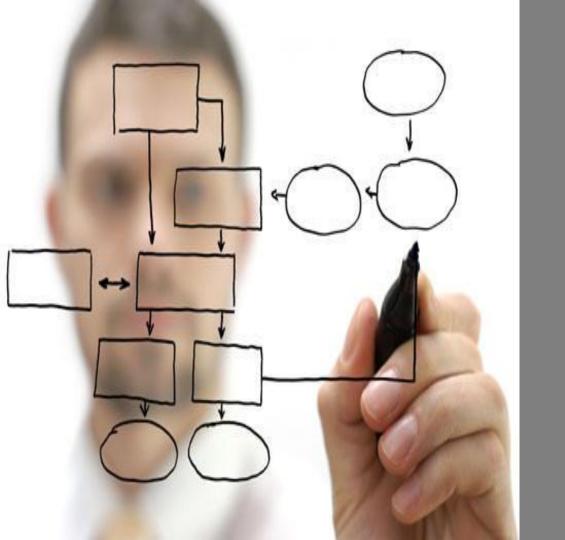

Example of a Box Score

Domain		ENTER START DATE HERE >	01/11/2021	08/11/2021	15/11/2021	22/11/2021	29/11/2021	06/12/2021	13/12/2021	20/12/2021	27/12/2021	03/01/2022	10/01/2022
	Safety	Number of patients seen (EXAMPLE)	85		56		70		66	70	76		74

Inpatient Mental Health Team - NHS Forth Valley

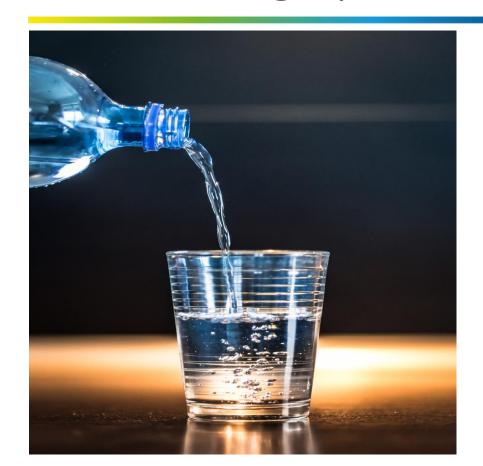

60% of admissions to Ward 2 Forth Valley Royal Hospital will have a completed clothing list by 19 July 2021

Identify and prioritise measures

Where do we get performance measures from?

Linkage chart

Process map

Existing measures within programmes of work

Examples of Performance Measures

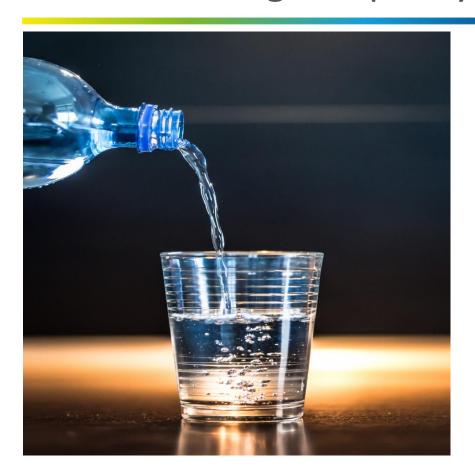

Performance Measures	Core	Common	Programmes
Number of patients seen (throughput)	✓		
Joy in Work / Staff Engagement	✓		
Median Time of Day of Discharge		✓	
Count of Falls		✓	SPSP
Count of Hospital Acquired Pressure Ulcers		✓	SPSP
Count of Cardiac Arrests		✓	SPSP
Food, Fluid and Nutrition			EiC
Early Warning Scores Accurate Calculation			EiC
New appointment activity			Access
Demand for new appointments			Access

Activity

Think about your area, take 5 minutes to populate what you would include as your performance measures

Where do we get capacity measures from?

Staff list of activities

Existing tools

Examples of Capacity Measures

Capacity Measures % Direct care (day) % Indirect care (day) % Available time (day) % Direct care (night) % Indirect care (night) % Available time (night) % Timeout % Time lost

Where do we get cost measures from?

Workforce data

Laboratory data

Medication data

Other supply systems data

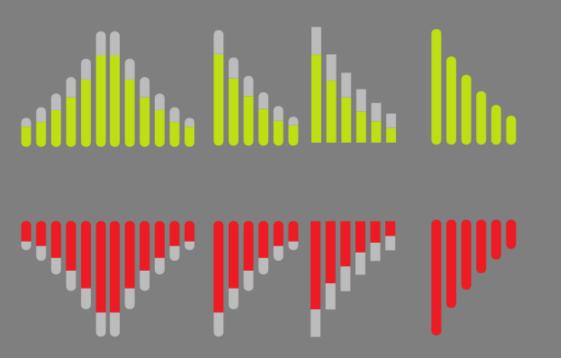

Examples of Cost Measures

Finance Measures	Core	Common
Nursing Pay Costs (Excluding Bank)	✓	
Nursing Pay Bank Costs	✓	
Medical Pay Costs		✓
Other Pay Costs		✓
Drug Costs	✓	
Direct Clinical Care Supplies Costs	✓	
Other Non Pay Costs		✓
Income		✓
Total Costs	✓	
Costs Per Patient / Procedure	✓	

Activity

Think about your area,
take 5 minutes to
populate what you would
include as your capacity
and cost measures

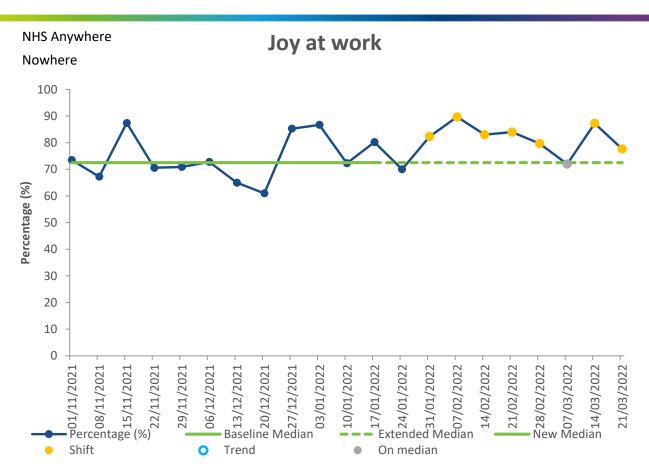

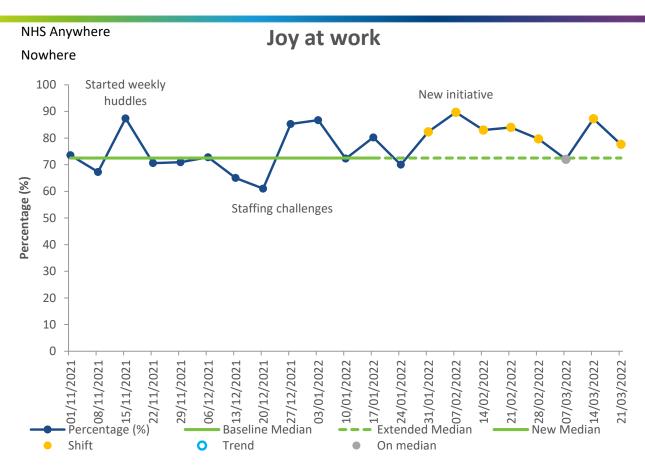

Using charts to deliver improvement

Box Score Measures Checklist

✓ Cover a range of programmes

Have performance, capacity and cost measures

- ✓ Data flows are established
- ✓ Linked to organisational strategy

Box Score Measures Checklist

Performance reflects quality improvement and quality control

Capacity enables teams to monitor an increase in direct capacity

Costs are variable, and can be managed over time by the team
